RESOLUTION NO. 2011-10

A RESOLUTION OF THE BOARD OF COUNTY
COMMISSIONERS OF GILCHRIST COUNTY, FLORIDA;
URGING THE STATE LEGISLATURE TO REPEAL STATE
PREEMPTION IN THE AREA OF REGULATING
SECONDHAND TOBACCO SMOKE; AND ESTABLISHING
AN EFFECTIVE DATE.

WHEREAS, numerous studies have found that tobacco smoke is a major contributor to
indoor air pollution, and that breathing secondhand smoke is a cause of disease in healthy
nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer; and

WHEREAS, the 2006 U.S. Surgeon General’s report, "The Health Consequences of
Involuntary Exposure to Tobacco Smoke" concluded that there is no risk-free level of exposure
to secondhand smoke; ventilation and other air cleaning technologies cannot completely control
for exposure of nonsmokers to secondhand smoke; smoke-free workplace policies are the only
effective way to eliminate secondhand smoke exposure in the workplace, and evidence from
peer-reviewed studies shows that smoke-free policies and laws do not have an adverse economic
impact on the hospitality industry; and

WHEREAS, the World Health Organization has determined that there is no safe level of
exposure to secondhand tobacco smoke, a pollutant that causes serious illness in adults and
children, and in 2007 declared that there is indisputable evidence that implementing 100%
smoke-free environments is the only effective way to protect the population from the harmful
effects of exposure to secondhand smoke; and

WHEREAS, the National Cancer Institute determined in 1999 that secondhand smoke is
responsible for the early deaths of 53,000 Americans annually; and

WHEREAS, the Public Health Service’s National Toxicology Program has listed
secondhand smoke as a known carcinogen; and

WHEREAS, secondhand smoke is particularly hazardous to individuals with
cardiovascular disease, individuals with impaired respiratory function, including asthmatics and
those with obstructive airway disease, and elderly people; and

WHEREAS, children exposed to secondhand smoke have an increased risk of asthma,
respiratory infections, sudden infant death syndrome, physical and cognitive developmental
abnormalities, and cancer; and

WHEREAS, data consistently demonstrates that secondhand smoke exposure increases
the risk of coronary heart disease and heart attacks and that smoke-free laws reduce heart
attacks; and
WHEREAS, local governments have both the right and the responsibility to adopt laws that protect the health and safety of their residents; and

WHEREAS, the people in local communities should have the right to protect themselves against the harmful effects of secondhand smoke; and

WHEREAS, more than 3,100 local governments throughout the country have successfully implemented smoke-free air laws to protect people against the harmful effects of secondhand smoke; and

WHEREAS, the tobacco industry, in an effort to negate such local legislation, has long had as its chief legislative strategy the preemption of local authority to regulate tobacco; and

WHEREAS, preemptive state laws have a devastating effect on tobacco control efforts and on the public health of the states’ residents and workers; and

WHEREAS, the vast majority of states do not preempt local smoke-free air legislation; and

WHEREAS, multiple states have successfully overturned preemption and restored local control to enact and enforce smoke-free air laws; and

WHEREAS, Florida has had a preemptive state law since 1985, which prohibits local governments from enacting laws that restrict smoking in any indoor or outdoor settings, such as workplaces and public places, or that restrict the marketing, advertising, and point of sale of tobacco products; and

WHEREAS, protecting people from the harmful effects of secondhand smoke is best accomplished by local communities working directly with the people most affected by smoke-free air laws; and

WHEREAS, the Florida Legislature should not deprive local governments of the authority to protect people from the harmful effects of secondhand smoke;

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF GILCHRIST COUNTY, FLORIDA:

Section 1. That Gilchrist County urges the Florida Legislature to restore the right of local governments to enact and enforce smoke-free air and other tobacco-related laws.

Section 2. That Gilchrist County strongly encourages other local governmental entities in Florida to adopt similar resolutions.

Section 3. This Resolution shall be effective immediately upon adoption.
DULY ADOPTED this 7th day of February, 2011.

BOARD OF COUNTY COMMISSIONERS
OF GILCHRIST COUNTY, FLORIDA

By:
Randy Durden, Chair

ATTEST:
Joseph W. Gilliam
Clerk to the Board of County Commissioners
